Dear Members of the SIEF on "SCALE (COATING), COPPER" (EC 273-744-9) and similar substances "WASTE SOLIDS, COPPER-refinery" (EC 273-718-7), "SCALE (COATING), mill, COPPER" (EC 305-427-9), "COPPER, DROSS" (EC 305-408-5), "WASTE SOLIDS, COPPER-casting" (EC 273-717-1)

Through a previous message from SFF **Aurubis/Norddeutsche Affinerie**, we informed you on the intention of Aurubis to act as Lead Registrant for the dossier on aforementioned substance. For your information, please find enclosed the letter from the SFF/Lead Registrant to Pre-SIEF members on substance identity, that was previously sent to you in the context of the "sameness discussion". Kindly note that in the course of these discussions, the previously proposed group has been amended by adding EC 305-408-5 (copper dross, a multi-purpose EC that splitted between Lead and Copper Consortiums). The registration dossier remaining in the scope of the REACH Copper Consortium now looks as :

Intermediate B10 - Scale (coating), Copper			
"Residue produced at high temperature by melting or treating at a high temperature of metallic copper (metal, alloy, scrap). The intermediate consists of cuprous oxide and cupric oxide."			
EC names	Substance covered/synonym	EC number/ EINECS No.	CAS No.
Scale (coating), copper*	Copper Slag, from fabricators	273-744-9	69012-45-9
Waste solids, copper-refinery*		273-718-7	679012-18-6
Waste solids, copper-casting*		273-717-1	69012-17-5
Copper, dross*	Ball mill dust	305-408-5	94551-59-4
Scale (coating), mill, copper*		305-427-9	94551-81-2

Today Aurubis would like to advise all SIEF members that it is nominated as LEAD REGISTRANT for the aforementioned dossier. For your consideration, please find attached the message sent from Lead Registrant to ECHA confirming the nomination.

**Aurubis** is member of the REACH Copper Consortium managed by the European Copper Institute (ECI) and is preparing the Joint registration dossier for the first registration deadline 2010, as a substance used as **intermediate under Strictly Controlled Conditions**. We take the opportunity to thank those who responded to our "sameness" survey.

On basis of the previously outlined dossier specificities and substance ID, the REACH Copper Consortium, in close cooperation with the Lead Registrant will now move on in the preparation of the registration dossier. Please let us know soon in case you have relevant data to share.
